RE: 2011 IRSDA Membership

Dear Regional District,

This year there has been numerous Indiana Senate & House Bills introduced concerning regional districts and regional sewer districts that all districts should review. I believe it is very important this year to support the IRSDA with your membership dues and participation. If you are already a member make sure you renew for 2011. If not your membership would certainly be appreciated this year and years to come.

The IRSDA meets quarterly at various locations. Besides discussing various issues important to regional districts, those attending are updated on legislative issues that may directly affect regional districts. The IRSDA does rely on associate members support and input on many of these issues but also much more such as finance, legal issues, project planning, and products, just to name a few. If you have not attended these meetings make this the year that you do so.

We held our 10th Anniversary IRSDA Conference on October 25, 2010. This Conference provided longer breaks to allow regional district participants to spend more time with the vendors. As mentioned before, the conference has proved to be one of the best ways for the networking of ideas, problem solving, updates on regulations, and contacts beneficial to its membership. So, should you not elect to become a member please consider attending our conference; for additional information about our conference visit our website or contact Connie Stevens at cstevens101@gmail.com.

The IRSDA Board would like to extend a "Thank You!" for your membership which helps support this great organization to continue its mission. IRSDA mission is vital for monitoring the proposed legislation for 2011 along with offering input and ideas to the legislators for pending bills that could have unintended consequences. If you are not a member make this the year you join other regional sewer and water districts to help make our Association even stronger in 2011, for your convenience, I have attached a membership invoice. If you have any questions concerning IRSDA, please contact me at 260-665-9865 (timf@slrwd.org), visit our website (www.irsda.org) or contact any of our current members about their experience with this growing organization. Your support and participation in the IRSDA is welcomed and encouraged.

Sincerely,

Tim Frederick
Membership Committee
